

Off Road Industry

High Performance Insurance Solutions for the Off Road Industry

The Industry Challenge

The Off-Road Industry has been experiencing increased insurance costs with less coverage than ever before. The number of insurance companies willing to insure this market segment have decreased, leaving you with fewer options and less competition for your business. Meeting your requirements for product and garage liability coverage for critical auto parts, accessories, racing applications, motorcycle or street rod exposures is a difficult task.

HT&R understands the unique insurance needs of your industry. The high cost for Workers' Compensation, Commercial General Liability (including products), Property, Inland Marine and Ocean Cargo is an ongoing problem with limited options.

The HT&R Solution

HT&R is a leading insurance broker for the Off-Road Industry. We have sought out insurance markets and developed specific programs that address your insurance requirements in a cost effective manner. Our long-standing relationships with insurance companies and our experience in your industry have enabled us to develop comprehensive coverage at a competitive price.

Experience You Can Count On

Our specialists in this division have over 20 years of experience in the automotive and motorcycle fields. We conduct insurance and risk management educational seminars at major industry associations including:

- SEMA — Specialty Equipment Market Association
- PRI — Performance Racing Industry
- PWA — Performance Warehouse Association

HT&R has national and international capabilities and supports the Trade Councils of Australia, Japan, Canada and other countries. We can assist you with your import/export business.

We currently provide insurance programs for many of the largest and most recognized automotive aftermarket companies in the industry. Our dedication to excellence, extensive resources and trusted relationships with insurance companies continue to keep us in the forefront of the Automotive and Motorcycle insurance market.
