Automotive Performance Warehouses

Purchasing coverage is just one of the many business insurance decisions your firm faces each year. Asset protection is a key factor in the continued success of your business. Risk management is not an exact science; therefore, the quality of your insurance broker is paramount to the quality of your risk management and insurance program.

HT&R has developed strategies to help you achieve your risk management goals:

Risk Management Services help you identify and manage your potential risks. Our support system includes risk and analysis reports, alternative risk financing, lease and contract review, certificate management, risk transfer programs and disaster plans.

Claims Services allow us to expedite, review, analyze, and monitor claims for our clients.

Human Resources Services provide Workers' Compensation, Employee Benefits, assistance with OSHA compliance, 24-hour coverage, employment practices liability and work safety programs.

Client Contact Services provide you with continuous access to our resources through a toll-free number, 24/7 claim reporting, 24/7 insurance certificates, web-site for useful tools, newsletters and special legislative updates.

Customer Service Professionals work as a dedicated customer service team to service and support your insurance and risk management needs.

HT&R offers a broad spectrum of products to meet your business and personal insurance needs:
