

# Aftermarket Wheel Industry

High Performance  
Insurance Solutions for the  
Aftermarket Wheel Industry

## The Industry Challenge

Wheel companies have been experiencing increased insurance costs with less coverage than ever before. The number of insurance companies willing to insure this market segment have decreased, leaving you with fewer options and less competition for your business.

Hayward Tilton & Rolapp Insurance Associates, Inc. understands the unique insurance needs of the **Aftermarket Wheel Industry**. The high cost of Product Liability and Workers' Compensation Insurance is an ongoing problem, that we have solutions for!

## The HT&R Solution

HT&R is a leader in insuring the **Aftermarket Wheel Industry**. We have specific insurance and risk management programs that address your insurance needs in a cost effective manner. Our client services provide continuous access to our resources, including a toll-free number, 24/7 claim reporting, a 24/7 insurance certificates service, and a workers' compensation claims auditing program.

## Experience You Can Count On

Our specialists in this division have over **30 years** of experience in the automotive field. We conduct insurance and risk management educational seminars at major industry associations including:

- SEMA — Specialty Equipment Market Association
- PRI — Performance Racing Industry
- PWA — Performance Warehouse Association

Our clients include some of the most recognized Automotive Wheel Manufacturers in the industry. Our dedication to excellence, extensive resources and trusted relationships continue to keep us in the forefront of the industry.
